Duval County Public Schools prohibits any form of discrimination or harassment on the basis of race, color, religion, gender, age, marital status, disability, sexual orientation, political or religious beliefs, national or ethnic origin, veteran status, or any other distinguishing physical or personality characteristics in any of its programs, services or activities.

Our Mission.

The Sandalwood Academy of Information Technology seeks to equip students with the skills and ethics necessary to succeed in higher education and in a technology-oriented workforce. This will be accomplished through a rigorous, engaging, relevant curriculum and the achievement of industry standard certifications.

Our Vision.

The Sandalwood Academy of Information Technology strives for success by building strong relationships with students, parents, business partners and academic institutions.

Choose your career field.

The Information and Geospatial Technology industries include these potential career areas:

- Computer Programmers
- Database Designers
- Graphic Designers
- 3D Animators
- Digital Photo Editors
- Network Engineers
- PC Support Technicians
- Web Page Designers/Masters
- Geological Data technician
- Mapping Technicians
- Civil Drafters
- Surveyors
- Cartographers
- Photogrammetrists
- Engineering Technicians

All S.A.IN.T. students are required to obtain the Internet and Computing Core Certification. Depending on your academy major, other certification areas include Java, A+, Net+, Dreamweaver, Illustrator, Photoshop, and more. GIS students can earn GIS Technician Assistant and GIS Technician encompassing GIS (Geographic Information System), GPS (Global Positioning System), RS (Remote Sensing), and Surveying.

S.A.IN.T. provides students with unique opportunities that give them a head start on college and careers.

The Sandalwood Academy of Information Technology offers two tracks: Information Technology and Geospatial Technology. Students have the opportunity to earn college credit and industry standard certifications in each, along with career-focused college preparation.

Nationally, 55% of career academy students graduate with a bachelor's degree vs. a 16% national average. We teach much more than just academics – goal setting and accomplishment, organizational skills, relevance lessons, and real-world problem-solving skills. This all results in decreased drop-out rates and increased attendance and achievement levels.

Dedication to students' success is at the top of our priority list, and faculty and staff are committed to helping students achieve their goals. Through industry certification, project-based learning, and paid internships combined with rigorous academic studies, we prepare students for a future in the technology industry as well as higher education.

To learn more about S.A.IN.T., call (904) 646-5100, ext. 109 and visit www.duvalschools.org/sandalwood.

Welcome to Sandalwood Academy of Information Technology.

The Sandalwood Academy of Information Technology (S.A.IN.T.) is designed for Sandalwood High School students who want to enhance their high school career with real-world experiences. The Academy features two tracks, each with a dynamic cluster of elective and core academic courses that focus on one of the world's largest and fastest-growing industries.

S.A.IN.T is composed of dedicated teachers and students who work together on projects like:

- Regular field trips to local businesses
- Summer internships for juniors
- Industry standard certifications in your academy major.
