

CHARTER SCHOOLS

A charter school is a public school that operates on a contract with the Duval County School Board. Charter schools are designed to:

- *Improve student learning and academic achievement*
- *Increase learning opportunities for all students with special emphasis on low-performing students and reading*
- *Encourage the use of innovative learning methods*

Each charter school has its own transportation plan. The District does not provide transportation to charter schools.

CHARTER SCHOOLS

SIATech

School for
Integrated Academics
and Technologies

REAL LEARNING for REAL Life

SIATech (SCHOOL FOR INTEGRATED ACADEMICS AND TECHNOLOGIES) focuses on students who have not found success in the traditional high school system. In partnership with the Jacksonville Job Corps Center, SIATech provides a motivating, challenging and technology-rich learning environment. A competent and caring staff provides hands-on assistance as students work at their own maximal pace to complete individual programs of study.

A New Campus For A Nationwide Program

Nestled on 29 tree-lined acres just north of downtown Jacksonville, the Jacksonville Job Corps Center has a lot to offer current and prospective SIATech students at its brand new campus. New educational and vocational buildings, dorms and a gymnasium offer a great environment for students to work on their education and train for a career. SIATech campuses are currently located in 15 Job Corps centers and serve over 3,200 students.

Allowing Students To Learn As Individuals

SIATech's diploma program uses both teacher-delivered and computer-assisted instruction with an individualized education plan for each student. Small classrooms and a low student-to-teacher ratio contribute to student success. Career technical training and an emphasis on "real learning for real life" ensures that students emerge with skills needed for higher education, the military or careers with opportunities for advancement.

Electives available through partnership with Job Corps include: Health Science 1 and 2; Carpentry 1, 2, and 3; Building Construction Tech 1, 2 and 3, A/C Refrigeration & HT Tech 1, 2 and 3; Computer College and Car; Key and Business Skills; Comp and Business Skills: Workplace Essentials; and Guided Workplace Learning.
